

IR2 Key & IR2-S Key

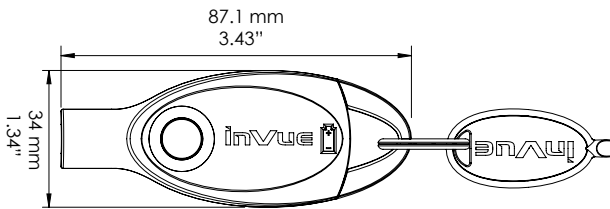

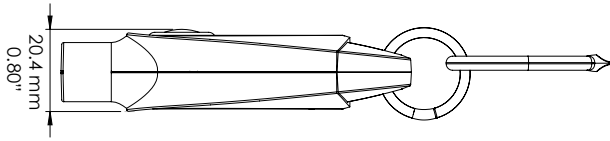

An innovative key technology that will unlock sales!

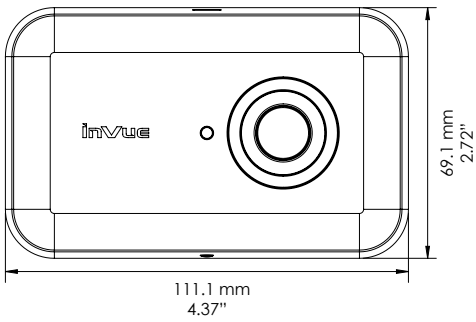

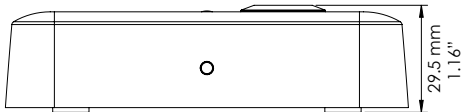

The IR2 and IR2-S Keys are the most secure key platforms available. Both can be entrusted and used by sales associates to easily and efficiently access merchandise locked in display cabinets. The new IR2-S Key provides an additional level of security – an audible alert that notifies sales associates that the display cabinet is open and needs to be locked.

Smart Lock and the IR Key platform provide the first electronic lock and key system designed specifically for retail.
