# IR Cable Lock & Golf Club Clip

IR Dot

1 With the IR Dot facing away from the band, insert the Cable Lock into the clip.

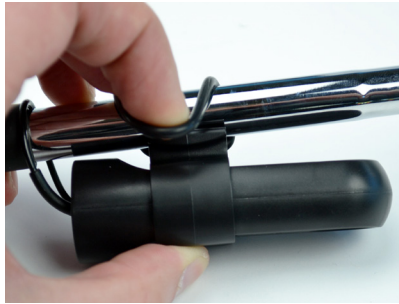

2 Fully insert the Cable Lock in to the clip as shown above.

3 Loop the tether from the Cable Lock over the shaft of the golf club.

4 Insert the end of the tether into the Cable Lock.

5 With the IR Dot pointing towards the golf club's head, hold the clip against the golf club shaft, loop the band from the clip over the shaft.

6 Hook the band into the clip.

**7** Position the Cable Lock and clip near the grip on the golf club.

8 To remove; Insert a charged and authorized OneKEY into the port on the Cable Lock and press the button. Pull the tether from the Cable Lock

ínVue

9a Unhook the band from the shallower side of the clip.

9b Do not attempt to unhook the band from the captured side of the clip.
