

TV Manager

One system to manage all your TVs

QUICK

Streamline operations by automating the operation of your display TVs – individually or together – through a single function.

EFFICIENT

Energy saving power loss detection sends notifications in real-time, and automatically restarts displays when power returns.

ACCURATE

Automatically detects each TV's make and model the sensor is attached to for planogram compliance and reporting.

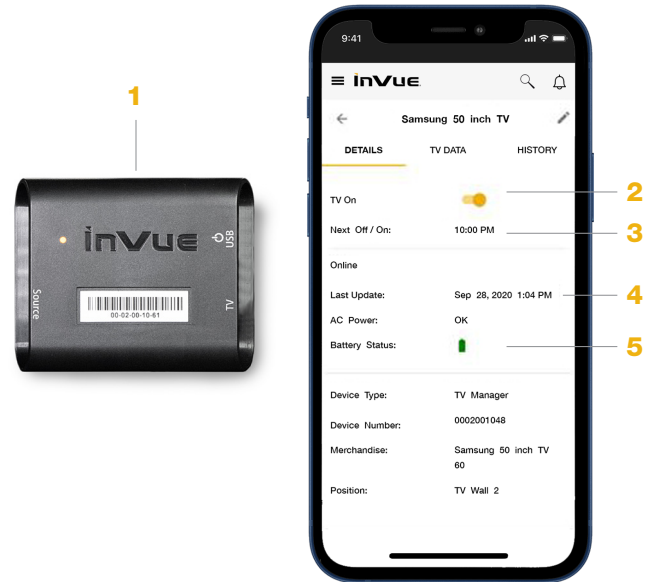

OVERVIEW

TV Manager is a single system that automates management of all displays across your stores, delivers real-time status alerts, and reports on planogram compliance resulting in improved operational efficiency at all levels.

FEATURES AND BENEFITS

- 1 Home screen provides quick status of all connected TV sensors
- 2 Instantly manage on/off functionality of individual TVs or all at once
- 3 Automate display schedules by pre-programming functionality
- 4 Real-time feedback on make and model of each display position
- 5 Detailed dashboard view provides measured data of individual TVs, including power and battery status, model number, name and position.

TV Manager is part of InVue LIVE—a connected platform of products that help retailers track, monitor and manage store operations in real time. With a suite of hardware and software solutions across Merchandising, Access Control, Security and Operations, InVue LIVE is the single source for retailers to gain in-store visibility across their estate.

TV MANAGER USES LIVE'S MOBILE APPLICATION TO:

- Deliver real-time notifications on display status
- Instantly manage displays across stores
- Receive reporting on planogram compliance
